Computer Engineering student with hands-on experience in Java, Android development, SQL, MySQL, and web development. Developed an Android-based ride-sharing application using Java, XML, and Android Studio, with experience working with databases, APIs, and application development. Seeking software development, Android development, or Java internship opportunities.

EDUCATION

Bachelor of Technology (B. Tech), Computer Engineering
Swaminarayan Siddhanta Institute Of Technology, Nagpur, Maharashtra
Currently Pursuing

Diploma in Information Technology
Government Polytechnic, Gondia, Maharashtra
June 2025 | Percentage: 76.06%

Secondary School Certificate (SSC)
Hadas High School, Nagpur, Maharashtra
May 2022 | Percentage: 83.80%

EXPERIENCE

Web Developer Intern | Anishree Technologies
June 2024 – August 2024

- Worked on web development projects using Python and Django Framework.
- Contributed to the development of dynamic websites as part of hands-on project work.
- Gained practical experience in web application development and Django-based development workflows.

PROJECT

RideARKKS – Android Ride-Sharing Application

- Developed an Android-based ride-sharing application using Java, XML, and Android Studio to connect auto-rickshaw drivers with nearby passengers.
- Implemented an intuitive and responsive interface for passengers to request rides and drivers to manage ride requests.
- Designed application functionality to support ride coordination between drivers and passengers in semi-urban and rural areas.
- Focused on reducing passenger waiting time and driver idle time through an application-based ride-sharing workflow.

CERTIFICATIONS

- Communication Skills Course (Unnati Foundation, Sponsored by Infosys and MUFG)
- Excel Training (IBM SkillsBuild | Microsoft)

SKILLS

- **Programming Languages:** Java, C, C++, Python, JavaScript
- **Web Technologies:** HTML, CSS
- **Android Development:** Android Studio, XML, Android Development
- **Database:** SQL, MySQL
- **Frameworks:** Django
- **Tools & IDEs:** Android Studio, IntelliJ IDEA, VS Code, PyCharm
